

Job Description

Artworker

Reports to: Senior Creative Artwork Lead

Overall responsibility:

Create and adapt packaging artworks correctly, efficiently and to meet all requirements of the brief.

Create new packaging artworks including labels, boxes, sleeves, foils, tubes, lids and outer cases for various different print processes.

Under own supervision create new files respecting the requirement for different print technologies.

Responsible for the collation of artworks for release (print data).

To carry out simple colour separation work to a satisfactory standard under supervision.

Responsible for making mock-ups as required.

Thoroughly check all artwork before releasing it to the Project Account Manager or other internal staff.

To make changes on already existing artworks as required.

To display a reasonable knowledge of the Adobe suite.

To assist other members of the artwork department as required.

Continue to learn and improve knowledge of packaging print technologies and how to prepare files accordingly.

Due to the continuously changing nature of the business we require you to be flexible. As a term of your employment you may be required to undertake such other duties as may reasonably be required of you.
